DRIVING DIRECTIONS

From 1-75: Exit 384 (SR 24/Archer Road). Go east on Archer Road approximately three miles to junction SR 226 (SW 16th Avenue). At the fork stay to the right and proceed one block to Shealy Drive. Turn right. The Small Animal Hospital is on your left.

From US 441: Proceed west on SW 16th Avenue (SR 226). At the third light turn, left onto Shealy Drive. The Small Animal Hospital is on your left. Please let your clients know that we offer free, clearly marked parking and a covered drop-off entrance.
WELCOME TO THE UF SMALL ANIMAL HOSPITAL

The University of Florida College of Veterinary Medicine and its clinical arm, the University of Florida Veterinary Hospitals (UFVH), opened its doors in 1978. Since that time the Small Animal Hospital has provided referral services, consultations, emergency veterinary services and 24 hour care for dogs, cats and exotic animals including birds, reptiles and small mammals.

At the UFVH we treat our patients using a team approach. The team is headed by a senior clinician whose area of specialization is pertinent to the diagnosis and treatment of your patient. Other members of the team include residents, interns, students and technicians all of whom, under the supervision of our senior staff clinicians, play an important role in providing patient care and maintaining communication with you and your clients. As a referring veterinarian, you are considered our most important client and an integral part of the patient health care team. Our core values are visualized with the patient, client and referring veterinarian at the heart of our pinwheel graphic below. To achieve excellence requires teamwork, trust, integrity and accountability. We cherish our relationship with you as a referring veterinarian and continually work to make our facilities a resource to complement your practice.

The purpose of this guide is to introduce you to the services, referral policies and clinicians in our hospital. We hope this information will help you to better understand all that we have to offer at the University of Florida Small Animal Hospital.

Go Gators!

Dana Zimmel, DVM, DACVIM, DABVP
Associate Dean for Clinical Services
Chief Medical Officer and
Clinical Associate Professor
**HOURS**

**Appointment Hours**
Monday through Friday 8 a.m. – 5 p.m.

**Emergencies**
24/7 year-round

**Call Center Hours**
Monday through Friday 8 a.m. – 5 p.m.

**THE UF SAH WEBSITE**

Visit the UF SAH website, [smallanimal.vethospitals.ufl.edu](http://smallanimal.vethospitals.ufl.edu) or the Department of Small Animal Clinical Sciences website at [sacs.vetmed.ufl.edu](http://sacs.vetmed.ufl.edu).

**PHONE NUMBERS**

The College and UF SAH numbers are listed below. The SAH main number has an automated attendant to promptly direct your call. Just make the appropriate selection from the menu.

Small Animal Hospital Main & Emergency ......................... 352-392-2235

**SMALL ANIMAL HOSPITAL FEATURES**

- 100,000 square-foot, three-story facility
- Digital imaging service with CT, nuclear medicine, MRI and ultrasound
- One of the only interventional radiology and cardiology facilities in the nation
- 22 examination rooms
- 12 surgical suites, including dedicated and custom rooms for laparoscopy and arthroscopy
- More treatment rooms and ward areas, including facilities for emergency medicine, intensive care, progressive care and isolation
- A cancer referral and treatment center that includes a linear accelerator with image guidance and state-of-the-art stereotactic radiosurgery capability
- Expanded and dedicated endoscopy room with laser lithotripsy
- Renovated rehabilitation services area including two underwater treadmills and a therapy pool
- 24/7 emergency and critical care services
- Hemodialysis suite
- Hyperbaric oxygen therapy
REFERRALS

Veterinarians seeking assistance with their patients seen at the UF SAH may call 866-247-7950 (this number should not be given out to clients) or, if calling from Alachua County, please call our main number at 352-392-2235 and choose option #2. Our Call Center is available to help you schedule referral appointments and obtain medical records Monday through Friday, from 8 a.m. to 5 p.m. You can also use our online referral form on our website, vethospitals.ufl.edu, and follow the link under “Small Animal Referrals.”

If your clients call for an appointment it will help if you can advise them as to which service they should see. Emergencies will be seen the same day and appointments may be arranged for most routine cases within a week. It is preferable that you fax or email any written case summaries and supportive diagnostic information ahead of the patient’s appointment time. Items can be faxed to 352-846-2445 or emailed to the individual service. Alternatively, you may send a legible copy of records along with the client. Radiographs will be returned to you upon completion of the animal’s treatment.

Lynn Varner is our Referral Coordinator and has been with the UF Veterinary Hospitals since 1989. She started working as a Certified Veterinary Technician in the ICU at the UF Small Animal Hospital. Ms. Varner fosters the relationship between the referring practitioner and our hospital staff. Ms. Varner maintains the referral database and is the point person for rVetLink. Please contact her with any suggestions on enhancing the referral process. She can be reached at varnerl@ufl.edu or 352-294-4645.

Rachel DiSesa is our Clinical Programs Coordinator and has been with the College of Veterinary Medicine since 2006. She maintains and expands the hospital’s caseload for teaching purposes by improving relationships with our referring veterinarians and clients. Ms. DiSesa coordinates the college’s statewide “Night in the Swamp” continuing education series as well as our annual RDVM Appreciation Day. Ms. DiSesa holds a Master’s degree in agricultural education and communication and is currently a PhD student with particular interest in the area of leadership development. She can be reached at rdisesa@ufl.edu or 352-317-5944.

Brittany Caldwell is our Clinical Referral Representative and has been with the UF Veterinary Hospitals since 2013. She started working as a Client Services Representative at the UF Large Animal Hospital. Ms. Caldwell assists with improving relationships with our referring veterinarians and clients. Ms. Caldwell’s background includes a Bachelor’s Degree in Agribusiness Management with a specialization in Equine Business Management. Ms. Caldwell has a strong interest in veterinary outreach, community engagement and event planning for the UF Veterinary Hospitals. She can be reached at bcalder@ufl.edu or 352-294-4658.

RVETLINK PORTAL

We are pleased to introduce rVetLink, an online portal providing 24/7 access to your patients’ records through our website. Using rVetLink’s services will make managing your patients’ care easier by giving you access to medical records needed for diagnosis and treatment, including discharge instructions and lab results. You can access rVetLink directly at vethospitals.ufl.edu/rVetLink.
**OUR REFERRAL PROTOCOL**

**CALLS FOR THE FOLLOWING:**

Patient evaluations and diagnostic procedures are often concluded after regular business hours. To help us reach you, we ask you to provide us with an after-hours telephone number and your email address.

1. The receiving clinician communicates with the referring veterinarian via phone, fax or email within 24 hours or on the day the patient is evaluated to report findings and any diagnostic or treatment plan. We will also communicate to you any major changes in your patient’s status during hospitalization or if your patient is transferred to another service.

2. Discharge instructions are faxed or emailed to the referring veterinarian the same day or early the next day.

3. Each service will also follow up via phone, fax or email after discharge to report any late arriving laboratory or other diagnostic results.

**FINANCIAL POLICIES**

The UF SAH receives limited financial support from the State of Florida. In order to fund our programs we must charge competitive prices for all services and procedures. Please remind your referred clients that the cost of diagnostic evaluation, treatment, surgery and hospitalization may be substantial. Fees for outpatient visits are to be paid in full at the time of service. Admissions (including emergencies) require a deposit of 75% of the estimated total cost with the balance due at the time of discharge.

For your client’s convenience, we accept cash, checks, MasterCard, Visa, Discover, American Express and CareCredit. Individuals other than the owner admitting an animal must provide written treatment authorization signed by the owner, or be able to assume financial responsibility themselves for the total cost of the visit. If you have questions, we suggest that you call and talk to one of our Referral Liaisons to obtain an estimate of the overall cost. Please remind your clients that an accurate estimate can only be given after the animal is examined.

**SMALL ANIMAL EMERGENCY & CRITICAL CARE SERVICE**

The Emergency and Critical Care Service is headed by faculty members who are board certified in the American College of Veterinary Emergency and Critical Care and includes emergency clinicians from the hospital as well as dedicated emergency room and intensive care technicians. We provide emergency services for small animals 24 hours a day, 7 days a week. The emergency service specializes in providing care for small animals that are acutely sick, have severe trauma, intoxications, experience sudden worsening of chronic diseases or any cases where the referring veterinarian feels that urgent referral for diagnostics or treatment would be beneficial.

Patients admitted through the emergency service will be assessed and stabilized on arrival. They may be transferred to another service within the hospital such as internal medicine, surgery or cardiology. The patient may remain under the care of the emergency and critical care service depending on the patient’s needs.

We are always happy to see either referral or walk-in emergencies. If you would like to speak to a faculty member about the services we provide, a patient at your hospital or a possible referral, please call 866-247-7950.

In addition to emergency services, we also provide intensive care services for critically ill patients in our state-of-the-art ICU. These capabilities include mechanical ventilation, hemodialysis, continuous renal replacement therapy, blood transfusion and advanced hemodynamic monitoring including continuous EKG, invasive blood pressure and cardiac output monitoring. To allow us to provide excellent patient care, the ICU is staffed by both doctors and highly trained technicians 24/7. The Emergency and Critical Care Service works closely with the other services in the hospital to ensure that patients and their owners have access to the best possible treatments, diagnostics and range of expertise available.

24-HOUR EMERGENCY LINE: 352-392-2235
UF PET EMERGENCY TREATMENT SERVICES IN OCALA, FLORIDA

The concept of this emergency clinic originated with Ocala veterinarians who created the Pet Emergency Treatment Service Corporation (PETS) in 2012. In a unique collaboration, the University of Florida College of Veterinary Medicine and PETS joined forces to serve pet owners in the Marion County region. The purpose of the clinic is to bridge the gap during times when veterinarians’ offices are typically closed. Our goal is to provide a caring, compassionate environment for critically ill animals and their families.

UF PETS is open from 5 p.m. to 8 a.m. on weekdays and all day on weekends and holidays to provide immediate emergency care for pets.

24-HOUR EMERGENCY LINE:
352-512-0886
pets.vethospitals.ufl.edu
3200 SW 27th Ave.
Ocala, FL 34474

AMANDA MCCARTHY
Practice Manager
Amanda MacCarthy has been with the UF Small Animal Hospital since 2012 working in accounts receivable and hospital administration. Much of her time has been spent working closely with client services, technicians, managers and faculty. Ms. MacCarthy’s background includes a Bachelor’s Degree in Psychology and she is pursuing certification in Veterinary Practice Management. She has a strong interest in staff training, leadership and communication.

MENTAL HEALTH COUNSELOR

Dr. Ron Del Moro is a holistically minded licensed Mental Health Counselor who has been providing counseling and training in the Gainesville Community since 2005. He holds a Master’s degree in Couple, Marriage & Family Counseling and a Doctorate in Mental Health Counseling from the University of Florida.

Dr. Del Moro assists clients, students, faculty and staff here at the University of Florida Veterinary Hospitals. He provides support and training for faculty, students and staff with communication, education, stress management, grief and death issues. He is available for individual and small group trainings, consultations, case debriefing, work-life balance and/or emotional support. You or your client may wish to visit vethospitals.ufl.edu/pet-loss-support for additional resources. Dr. Del Moro can be reached at rondel@ufl.edu or 352-494-4430.
**IMAGE-GUIDED INTERVENTIONAL SERVICE**

The Image-Guided Interventional Service at the UF Small Animal Hospital is a multidisciplinary team that utilizes the knowledge and skills of specialists in diagnostic imaging, surgery, internal medicine, cardiology, oncology and critical care to offer minimally invasive treatments guided by the use of ultrasound, fluoroscopy and endoscopy. Image-guided interventions, also known as interventional radiology, have far-reaching applications across numerous species, organ systems and diseases. Advantages of these therapies include reduced complications, shorter hospital stays and the ability to treat conditions for which no treatment exists or in which conventional treatments involve risks that are unacceptable to the client or patient. For an appointment or more information, call 352-392-2235.

**HOSPITAL DESIGNATIONS**

**American Animal Hospital Association**

The University of Florida Small Animal Hospital and UF Pet Emergency Treatment Services in Ocala is recognized by the American Hospital Association (AAHA). We earned AAHA accreditation after a rigorous review of our practice protocols, medical equipment, facility and client service.

AAHA-accredited hospitals are the only hospitals that choose to be evaluated on approximately 900 quality standards that go above and beyond basic state regulations, ranging from patient care and pain management to staff training and advanced diagnostic services. AAHA-accredited hospitals are recognized among the finest in the industry and are consistently at the forefront of advanced veterinary medicine. AAHA standards are continuously reviewed and updated to keep accredited practices on the cutting edge of veterinary excellence.

**American Association of Feline Practitioners**

The University of Florida Small Animal Hospital has been designated as a Cat Friendly Practice (CFP) by the American Association of Feline Practitioners (AAFP). We meet a comprehensive checklist of performance criteria to verify that our staff members are especially qualified and dedicated to making every visit pleasant and beneficial for your client’s cat.

**Veterinary Emergency & Critical Care Society**

The University of Florida Small Animal Hospital and Ocala’s Pet Emergency Treatment Service are emergency facilities as certified by the Veterinary Emergency & Critical Care Society (VECCS). We follow the guidelines set forth by VECCS, showing our commitment to raising the level of emergent and critical patient care. The Small Animal Hospital is the state’s only Level I facility.

smallanimal.vethospitals.ufl.edu | 352-392-2235
ANESTHESIA & PAIN MANAGEMENT

Services offered: Anesthesia and pain management.

DR. FERNANDO GARCIA-PEREIRA
Service Chief
DVM, University of São Paulo, Brazil, 2001. MVSc, Washington State University, 2005. Completed an internship in anesthesiology at the University of São Paulo in 2002, a rotating internship in 2006 and a residency in 2005 at Washington State University. He is a Diplomate of the ACVAA. Special interests include pain pathophysiology, ultrasound and electric-guided regional blocks, epidural and subarachnoid anesthesia and neurostimulation.

DR. BONNIE GATSON
DVM, University of Florida, 2013. Completed an internship at Tufts University in 2014 and residency at the University of Florida in 2015. Special interests include CPR, regional blocks and regurgitation under anesthesia.

DR. LUISITO S. PABLO
DVM, University of the Philippines, 1978. MS, Auburn University, 1982. Completed a residency in anesthesia at Auburn University in 1989. Completed a non-conforming anesthesia residency at the University of Florida in 1992. He is a Diplomate of the ACVAA. Special interests include large and small animal anesthesia.

DR. ANDRE SHIH
DVM, University of São Paulo, Brazil, 1999. Completed a residency in anesthesiology at the University of Florida in 2006. He is a Diplomate of the ACVAA. He is also certified by the Chi Institute in small animal veterinary acupuncture. Special interests include neuropathic pain and hemodynamic changes in healthy and critically ill patients.

Residents
DR. DOUGLAS CASTRO

DR. VAIDEHI PARANJAPE

CARDIOLOGY
cardiologydept@vetmed.ufl.edu

Services offered: We specialize in both medical and interventional (cardiac catheterization) cutting edge cardiac care for pets afflicted with heart disease. Services offered include: complete cardiovascular physical examination, non-invasive blood pressure measurement, echocardiography, electrocardiography, 24-hour Holter monitoring (in-house and mail-out), event monitoring, diagnostic cardiac catheterization, pacemaker implantation, balloon valvuloplasty, embolization of patent ductus arteriosus, heartworm extraction and vascular interventions (i.e. intrahepatic shunt embolization, arterial chemoembolization).

DR. SIMON SWIFT
Service Chief
DVM, 1983 and VetMB, 1986, Cambridge University, UK. Completed an alternative residency at the University of Liverpool in 2008. He is a Diplomate of the ECVIM. Special interests include degenerative mitral valve disease, cardiac interventional procedures and management of arrhythmias.

DR. MEG SLEEPER
VMD, University of Pennsylvania, 1993. Completed an internship at the Midatlantic Equine Medical Center in 1994 and residency at the University of Pennsylvania in 1997. She is a Diplomate of ACVIM. Special interests include gene therapy for cardiovascular disease and inherited heart disease.

Residents

DERMATOLOGY
dermatologydept@vetmed.ufl.edu

Services offered: Diagnosis and management of all skin diseases, allergy testing and immunotherapy.

DR. DUNBAR GRAM  Service Chief
DVM, Auburn University College of Veterinary Medicine, 1987. Completed a small animal rotating internship at the University of Illinois in 1988 and residency in dermatology at North Carolina State University in 1991. He is a Diplomate of the ACVD and a Member of the RCVS. Special interests include flea control, allergic dermatitis, methicillin resistant staph and chronic management of incurable diseases.

DR. ROSANNA MARSELLA
DVM, Università degli Studi di Milano, Italy, 1991. Completed a residency in dermatology at the University of Florida, 1996. She is a Diplomate of the ACVD. Special interests include allergies, immunology, pathogenesis of atopic dermatitis and alternative treatments for atopic dermatitis. Dr. Marsella holds a joint appointment in the UF College of Medicine.

DR. DOMENICO SANTORO

Residents

DR. JENNIFER BENTLEY
DR. MEGAN BOYD

DIAGNOSTIC IMAGING

Services offered: Radiology, computerized radiology, fluoroscopy, ultrasound, scintigraphy, radioactive iodine therapy, CT, MRI, referral diagnostic image studies, PennHip and OFA.

DR. CLIFFORD (KIP) BERRY  Service Chief
DVM, University of Florida, 1984. Completed a residency in radiology at the University of California, Davis in 1990. He is a Diplomate of the ACVR. Special interests include thoracic radiology, abdominal ultrasound, cross-sectional imaging and the application of novel imaging modalities to animal models of human disease.

DR. ROBSON GIGLIO
DVM, University of São Paulo, Brazil, 2001. PhD, University of São Paulo, Brazil, 2007. MS, University of São Paulo, Brazil, 2004. MS, University of Florida, 2016. Completed an internship in diagnostic imaging in 2005 and residency in 2016 at the University of Florida. Special interests include small, exotic and large animal diagnostic imaging, descriptive and comparative anatomy of domestic and wild animals and canine behavior and training.

DR. CINTIA OLIVEIRA
DVM, Universidade Federal de Minas Gerais, 2007. MS, University of Illinois, 2011. Completed an internship at Louisiana State University in 2008, an internship at the University of Illinois in 2010 and a residency at the University of Wisconsin in 2013. Special interests include cross-sectional imaging of small animals with emphasis on awake/sedated computed tomography of dogs and cats and contrast-enhanced ultrasound.

DR. ERIN PORTER
DVM, University of Florida, 2007. Completed an internship in equine lameness & imaging at the University of Florida in 2009 and a residency in radiology in 2013. She is a Diplomate of the ACVR. Special interest in equine orthopedic imaging.

DR. MATTHEW WINTER
DVM, Cornell University, 1998. Completed a residency in diagnostic imaging at Tufts University in 2004. He is a Diplomate of the ACVR. Special interests include computed tomography and magnetic resonance imaging with a focus on musculoskeletal imaging.
INTEGRATIVE MEDICINE
integrativedept@vetmed.ufl.edu

Services offered: Canine and feline acupuncture, therapeutic laser, neuromuscular electrical stimulation, underwater treadmill therapy, therapeutic ultrasound, custom rehabilitation protocols, shockwave, stem cell therapy, clinical nutrition, home-cooked diet formulation, obesity programs, multimodal enhancement of the quality of life of geriatric patients and pain management protocols. Typical conditions treated in combination with conventional therapies include but are not limited to orthopedic disease, neurologic disorders, cancer, obesity, muscle injuries and performance enhancement for the canine athlete.

DR. JUSTIN SHMALBERG Service Chief
DVM, University of Wisconsin, 2008. Completed an internship in acupuncture at the University of Florida in 2009 and a residency in nutrition in 2012. He is a Diplomate of the ACVN and ACVSMR and is certified in veterinary acupuncture. Special interests include nutritional supplements, integrative medicine, nutritional oncology and energy expenditure during rehabilitation.

DR. LINDSAY HOCHMAN

DR. HUISHENG XIE
DVM, Sichuan College of Animal Sciences and Veterinary Medicine, China, 1983. PhD, University of Florida, 1999. MS, Beijing Agricultural University, China, 1988. Acupuncture Training Diploma, Beijing College of Traditional Chinese Medicine, China, 1993. Special interests include pain management, gastrointestinal and respiratory diseases, sports medicine and improving quality of life in geriatric and cancer patients.

NEUROLOGY
neurologydept@vetmed.ufl.edu

Services offered: Diagnostic neurology, neurosurgery and radiosurgery.

DR. SHEILA CARRERA-JUSTIZ Service Chief
DVM, University of Florida, 2005. Completed a rotating small animal internship at the University of Missouri in 2006 and a rotating neurology internship at the Veterinary Specialty Hospital of San Diego in 2007. Completed a neurology and neurosurgery residency at Tufts University, 2010. She is a Diplomate of the ACVIM (Neurology). Special interests include cerebrovascular disease, novel neurosurgical techniques and advanced imaging techniques.

DR. GABRIEL GARCIA
DVM, Ross University, 2008. Completed clinical rotations at Auburn University in 2009, an internship in small animal medicine and surgery at Miami Veterinary Specialists in 2011 and an internship in small animal surgery at Affiliated Veterinary Specialists in 2012. He completed an internship in small animal neurology/neurosurgery at Bush Veterinary Neurology Service in 2013 and a residency in small animal neurology/neurosurgery at Mississippi State University in 2016. Special interests include neurosurgery, seizure management and orthopedic procedures.
Residents

DR. AUDREY COLLINET
DR. JI-HEY LIM
DR. CHRISTINE SENECCA

NUTRITION

Services offered: Individualized nutrition and feeding plans, weight loss management, nutritional support for hospitalized veterinary patients, evaluation of therapeutic diets, analysis and formulation of home-prepared diets, evaluation of nutraceuticals and other supplements.

DR. JUSTIN SHMALBERG
DVM, University of Wisconsin, 2008. Completed an internship in acupuncture at the University of Florida in 2009 and a residency in nutrition in 2012. He is a Diplomate of the ACVN and ACVS and is certified in veterinary acupuncture. Special interests include nutritional supplements, integrative medicine, nutritional oncology and energy expenditure during rehabilitation.

DR. RICHARD HILL
VetMB, 1980 and MA, Medical Sciences, 1981, University of Cambridge, UK. PhD, Veterinary Medicine, University of Florida, 1993. Completed a residency in medicine at the University of Pennsylvania in 1987. He is a Diplomate of the ACVIM and ACVN. Special interests include nutrition, exercise and small animal gastroenterology.

ONCOLOGY

oncologydept@vetmed.ufl.edu

Services offered: The Oncology Service provides you and your clients with a fully integrated approach to cancer diagnosis and treatment. Medical, surgical and radiation oncologists all work together within the service to discuss all available options, regardless of diagnosis, prognosis or finances. We aim to provide your clients with a personalized plan following the consultation, with a goal of demystifying modern cancer therapies and offering support, comfort and hope.

DR. SARAH BOSTON
Surgical Oncology Service Chief
DVM, University of Saskatchewan, 1996. Completed a rotating internship at the University of Guelph, 1997. DVSc and residency in small animal surgery, University of Guelph, Canada, 2003. Completed a fellowship in surgical oncology at Colorado State University in 2005. She is a Diplomate of the ACVS and an ACVS Founding Fellow of Surgical Oncology. She is president of the Veterinary Society of Surgical Oncology. Special interests include osteosarcoma, hemangiosarcoma, mast cell tumors, soft tissue sarcoma and staging of cancers.

DR. AMANDINE LEJEUNE
Medical Oncology Service Chief
DVM, École nationale vétérinaire de Toulouse, 2007. Completed a rotating internship at Cummings School of Veterinary Medicine at Tufts University in 2009, an internship at Ontario Veterinary College in 2010 and a residency in medical oncology at the University of California, Davis, in 2013. She is a Diplomate of the ACVIM (Oncology). Special interests include targeted therapy, chemotherapy and clinical trials.

DR. KEIJIRO SHIOMITSU
Radiation Oncology Service Chief
BVSc, Azabu University, Japan, 1997. Completed a residency at North Carolina State University in 2008. He is a Diplomate of the ACVR (Radiation Oncology). Special interests include angiogenesis, radiation sensitizers and Intensity Modulated Radiation Therapy (IMRT).

DR. ROWAN MILNER
BVSc, 1980 and BVSc (Hons), 1993, University of Pretoria, South Africa. MedVet, 1997 and PhD, 2013, University of Pretoria, South Africa. He is a Diplomate of the ECVIM (Internal Medicine and Oncology) and ACVIM (Oncology). Special interests include radiation oncology, cancer vaccines, osteosarcoma and soft tissue sarcomas.

smallanimal.vethospitals.ufl.edu | 352-392-2235
OPHTHALMOLOGY

Services offered: Diagnostic ophthalmology, medical treatment of eye disease, ophthalmic surgery including corneal, cataract, glaucoma, eyelid, and laser surgeries, pre-purchase and eye wellness examinations.

DR. CARYN PLUMMER Service Chief
DVM, University of Florida, 2002. Completed an internship at Michigan State University in 2003 and a residency in ophthalmology at the University of Florida in 2006. She is a Diplomate of the ACVO. Special interests include canine glaucoma, ocular pharmacology, surgery, ocular disease as a manifestation of systemic disease, equine and feline ophthalmology.

DR. RALPH HAMOR
DVM, University of Missouri, 1987. MS, Colorado State University, 1993. Completed an internship in small animal surgery and medicine at Auburn University in 1988 and a residency in comparative ophthalmology at Colorado State University in 1993. He is a Diplomate of the ACVO. Special interests include electrodiagnostic evaluation of retinal disease, tear film evaluation and clinical drug therapy.

DR. DAVID WHITLEY
DVM (Hons), Auburn University, 1977. MS, Auburn University, 1981. Completed an internship at the University of Missouri in 1978 and a NIH research fellowship at the University of Florida in 1979. He is a Diplomate of the ACVO. Dr. Whitley has previously served on the faculty at the University of Florida, Auburn University and Iowa State University. Special interests include corneal disease, glaucoma, intraocular surgery, ocular pathology, equine ophthalmology and ophthalmic drug delivery systems.

Residents & Interns

DR. STACEY FOX-ALVAREZ
DVM, Universidade Federal Rural do Rio de Janeiro, 1997. MS, Veterinary Surgery, Universidade Federal Fluminense, 1996. Completed a residency in oncology at the University of Illinois in 2004 and a residency in surgery at the University of Tennessee in 2008. He is a Diplomate of the ACVIM (Oncology) and the ACVS. Special interests include oral squamous cell carcinoma in cats and retinoids.

DR. ANNA SZIVEK
DVM, Kansas State University, 2006. Completed a small animal rotating internship at Southern Arizona Veterinary Specialty and Emergency Center in 2007. Completed an internship in oncology in 2008 and residency in 2011 at the University of California, Davis. Special interests include hemangiosarcoma, osteosarcoma and palliative/hospice care.

DR. SHANA HUTCHINSON
DVM, University of Florida, 2002. Completed an internship at Michigan State University in 2003 and a residency in ophthalmology at the University of Florida in 2006. She is a Diplomate of the ACVO. Special interests include canine glaucoma, ocular pharmacology, surgery, ocular disease as a manifestation of systemic disease, equine and feline ophthalmology.

Residents

DR. RENATA RAMOS

_ophthalmologydept@vetmed.ufl.edu_
**PRIMARY CARE & DENTISTRY**

*Services offered:* Comprehensive wellness care to outpatients. Preventive, endodontic and restorative dentistry.

**DR. AMY STONE**  
Service Chief  
DVM, University of Florida, 1999. PhD, Veterinary Medical Sciences, University of Florida, 2002. Special interests include dentistry, vaccinology and small animal medicine.

**DR. FRANCESCA GRIFFIN**  
DVM, University of Florida, 2003. MS, Medical Sciences, University of South Florida, 1997. Special interests include preventive medicine.

**DR. WENDY MANDESE**  
DVM, University of Florida, 2002. Special interests include preventive medicine and dentistry.

**DR. JULIA WUERZ**  
DVM, University of Florida, 2002. Special interests include dentistry, behavior and medical diagnostics.

**SMALL ANIMAL EMERGENCY & CRITICAL CARE**

*Services offered:* Emergency management of all medical and surgical conditions, intensive care of critically ill patients including hemodialysis, mechanical ventilation, advanced hemodynamic monitoring, fluid therapy and blood transfusion.

**DR. GARETH BUCKLEY**  
Service Chief  
VetMB, 2005 and MA, 2006, University of Cambridge, UK. Completed a rotating internship in small animal medicine and surgery at the University of London Royal Veterinary College in 2006. Completed an internship and residency in emergency and critical care at Tufts University in 2010. He is a Diplomate of the ACVECC and ECVECC. Special interests include cardiopulmonary resuscitation and protocol driven medicine.

**DR. TRAVIS LANAUX**  
Service Chief  
DVM, Louisiana State University, 2006. Completed a residency in emergency and critical care at Tufts University in 2010. He is a Diplomate of the ACVECC. Special interests include bedside diagnostic testing and colloid fluid therapy.

**DR. ASHLEY ALLEN**  
DVM, Mississippi State University, 2010. Completed a residency in small animal emergency and critical care at the University of Florida in 2014. She is a Diplomate of the ACVECC. Special interests include snake envenomation and veterinary trauma patients.

**DR. ANDREW CARVER**  

**DR. BOBBI CONNER**  
DVM, Michigan State University, 2007. Completed a small animal rotating internship at the University of Illinois in 2008 and a residency in emergency and critical care at North Carolina State University in 2011. She is a Diplomate of the ACVECC. Special interests include coagulopathies, thrombosis and antithrombotic therapies.
DR. PIMPLOY JONG
DVM, University of Minnesota, 2012. Completed an internship at Wisconsin Veterinary Referral Center in 2013. Worked in small animal private practice from 2013 to 2016. Special interests include emergency medicine, acute abdomen and toxicity.

DR. LEONEL LONDOÑO
DVM, University of Florida, 2011. Completed a rotating internship in surgery and medicine at Hollywood Animal Hospital in 2012 and a residency at the University of Florida in 2015. Special interests include hemodialysis, renal physiology, pathophysiology and ultrasonographic evaluation in the critical and emergent patient.

DR. ALEX LYNCH

DR. KATHERINE MCHENRY
DVM, Ohio State University, 2015. Completed an externship in emergency medicine, shelter medicine and surgery at Rascal Animal Hospital and an externship in surgery and cardiology at Metropolitan Veterinary Hospital in 2014. Completed a small animal rotating internship at the University of Florida in 2016. Special interests include intoxications and envenomations, wound management and stabilization and management of acute abdomen.

DR. MICHAEL SCHAER
DVM (Hons), University of Illinois, 1970. Completed an internship and residency in medicine at the Animal Medical Center in New York in 1973. He is a Diplomate of the ACVIM and the ACVECC. Special interests include endocrinology, fluid and electrolyte disorders, snake bite and other environmental emergencies.

Residents & Intern

DR. JESSECA BULLOCK

DR. SAMANTHA CAMPOS

DR. JENNIFER MARTINEZ

DR. STAVROS PAVLIDES

DR. IGOR YANKIN
SMALL ANIMAL INTERNAL MEDICINE

Services offered: Diagnosis and treatment of all medical conditions, critical care, endoscopic diagnosis and therapy (rhinoscopy, bronchoscopy, cystoscopy, upper and lower GI endoscopy), hemodialysis, laser lithotripsy and nutrition.

DR. ANDREW SPECHT Service Chief
DVM, University of Minnesota, 2000. Completed an internship at Tufts University in 2001. He is a Diplomate of the ACVIM. Special interests include urology, nephrology, hematology and image-guided therapies.

DR. KIRSTEN COOKE
DVM, Tufts University, 1993. Completed an internship in small animal internal medicine and surgery at Michigan Veterinary Specialists in 1994 and a residency at the University of Florida in 1998. She is a Diplomate of the ACVIM. Special interests include critical care medicine and internal medicine.

DR. ALEX GALLAGHER
DVM, University of Florida, 2001. Completed an internship in small animal internal medicine and surgery in 2002 and a residency in 2008 at Virginia-Maryland College of Veterinary Medicine. He is a Diplomate of the ACVIM. Special interests include endocrinology and interventional endoscopy.

DR. RICHARD HILL
VetMB, University of Cambridge, UK, 1980. PhD, Veterinary Medicine, University of Florida, 1993. MA, Medical Sciences, University of Cambridge, UK, 1981. Completed a residency in medicine at the University of Pennsylvania in 1987. He is a Diplomate of the ACVIM and ACVN. Special interests include nutrition, exercise and small animal gastroenterology.

DR. STUART WALTON
BVCs (Hons), University of Queensland, St. Lucia, Queensland, Australia, 2000. Completed a residency in small animal internal medicine at Veterinary Specialist Services, Brisbane, Australia in 2012 and a residency in small animal internal medicine at Louisiana State University in 2016. He is a Member of the MANZCVS. Special interests include therapeutic plasma exchange, immune mediated hemolytic anemia and thrombocytopenia and chronic obstructive pulmonary disease in dogs.

SMALL ANIMAL SURGERY

Orthopedic Surgery: orthopedicdept@vetmed.ufl.edu

Soft Tissue & Minimally Invasive Surgery: softtissuedept@vetmed.ufl.edu

Services offered: Soft tissue and orthopedic surgery, laparoscopy and arthroscopy (minimally invasive surgery), TPLO and TTA surgery and renal transplantation.

DR. GARY ELLISON Service Chief
DVM (Hons), University of Illinois, 1975. Completed a residency and MS in small animal surgery at Colorado State University, 1981. He is a Diplomate of the ACVS. Special interests include gastrointestinal surgery, laser surgery, perianal fistulas, minimally invasive surgery and feline renal transplantation.

DR. J. BRAD CASE
DVM, University of California, Davis, 2006. MS, Clinical Science, Colorado State University, 2011. Completed an internship in small animal medicine and surgery at Texas A&M University in 2007. Completed an internship at Flatiron Veterinary Specialists in 2008 and a residency in small animal surgery at Colorado State University in 2011. He is a Diplomate of the ACVS. Special interests include urinary tract, cardio-thoracic, upper airway and minimally invasive surgery, as well as image-guided interventional procedures (e.g. Intrahepatic PortoSystemic Shunts).

**ZOOLOGICAL MEDICINE**

**Services offered:** Diagnosis and treatment of all creatures great and small, including birds, reptiles, mammals and fish.

**DR. DARRYL HEARD** *Service Chief*
BVMS (Hons), Murdoch University, Perth, Australia, 1981. PhD, University of Florida, 1994. Completed a residency in veterinary anesthesia in 1985 and a residency in zoological medicine in 1987 at the University of Florida. He is a Diplomate of the ACZM. Special interests include the restraint and anesthesia of non-domestic species.

**DR. JAMES WELLEHAN**
DVM, University of Minnesota, 2001. PhD, University of Florida, 2010. MS, Molecular Veterinary Biosciences, University of Minnesota, 2001. MS in Molecular Veterinary Biosciences, University of Minnesota, 2001. Completed an internship at Ontario Veterinary College in 2002 and a residency in zoological medicine at the University of Florida in 2005. He is a Diplomate of the ACZM and ACVM. Special interests include comparative infectious disease diagnostics, host-pathogen coevolution and reptile medicine and surgery.

Lab Manager: Rebecca Richardson

Anatomic Pathology (Necropsy & Surgical Pathology)

Service Chief: Dr. Michael Dark
Lab Manager: Micaela Barter
ANATOMIC PATHOLOGY

Services offered: The anatomic pathology service provides diagnostic services to large and small animals in the areas of necropsy and surgical pathology.

DR. MICHAEL DARK Service Chief
DVM, Michigan State University, 2001. PhD, Veterinary Microbiology & Pathology, Washington State University, 2008. He is a Diplomate of the ACVP and has a special interest in veterinary pathology.

DR. JEFF ABBOTT
DVM, Washington State University, 1997. PhD, Veterinary Immunology, Washington State University, 2004. Completed a residency in comparative anatomical pathology at Washington State University in 2004. He is a Diplomate of the ACVP. Special interests and ongoing projects include the study of the mechanisms of host immunity as it relates to persistence of diseases, vaccine production, nutrition and pathology.

DR. WILLIAM CASTLEMAN
DVM, University of California, Davis, 1971. PhD, Comparative Pathology, University of California, Davis, 1979. MS, Anatomy, University of California, Davis, 1972. He is a Diplomate of the ACVP. Special interests include experimental pathology with a focus on pathogenesis of viral respiratory disease and recent emphasis on canine influenza virus infection.

DR. JULIA CONWAY
DVM, University of Florida, 2006. Completed a residency in anatomic pathology at the University of Florida in 2008. She is a Diplomate of the ACVP. Special interests include dermatopathology, diagnostic pathology, tumor pathology and ophthalmic pathology.

DR. SERENA CRAFT
DVM, Washington State University, 2004. Completed a residency in anatomic pathology at the University of Florida in 2013. She is a Diplomate of the ACVP. Special interests include developing a safe and efficacious vaccine for Ehrlichia canis and investigating different adjuvant formulations for safety and efficacy.

DR. WILLIAM CRAFT
DVM, Washington State University, 2004. Completed a residency in anatomic pathology at the University of Florida in 2013. Special interests include dermatopathology, diagnostic pathology, dermatology and allergy.

DR. LISA FARINA
DVM, University of Florida, 1999. Completed a residency in anatomic pathology at the University of Florida in 2003 and a fellowship in zoological pathology at the University of Illinois, Urbana-Champaign in 2005. She is a Diplomate of the ACVP. Special interests include diagnostic pathology of spontaneous diseases of captive and free-ranging non-domestic species.

DR. PAMELA GINN
DVM, Colorado State University, 1983. Completed a residency in anatomic pathology at the University of Florida in 1992. She is a Diplomate of the ACVP. Special interests include diagnostic pathology, dermatopathology, tumor histopathology, comparative dermatology and oncology.

CLINICAL PATHOLOGY

Services offered: The diagnostic laboratories work closely with our large and small animal medicine, surgery, dermatology, ophthalmology and reproduction services. The clinical pathology service performs hematology, chemistry, endocrinology, urinalysis, fluid analysis and cytology tests for large and small animals.

DR. MATTHEW WILLIAMS  Lab Director
DVM, Tuskegee University, 2001. Completed a residency in clinical pathology at Colorado State University in 2007. He is a Diplomate of the ACVP and a Medical Technologist of the ASCP.

DR. SARAH BEATTY
DVM, University of Florida, 2011. Completed a residency in clinical pathology at the University of Florida in 2014. She is a Diplomate of the ACVP. Special interests include large animal clinical pathology, oncology, zoological and wildlife medicine and infectious disease.

DR. MARY LEISSINGER
DVM, Louisiana State University, 2010. MS, Louisiana State University, 2014. Completed a rotating internship in small animal medicine and surgery at the University of Tennessee in 2011 and a residency in clinical pathology at Louisiana State University in 2014. Special interests include clinical chemistry and coagulation.

SHELTER MEDICINE AT THE UNIVERSITY OF FLORIDA

Shelter medicine at UF has two main components:

1. Maddie’s Shelter Medicine Program
2. Veterinary Community Outreach

Maddie’s Shelter Medicine Program at UF

Maddie’s Shelter Medicine Program provides consultation and direct assistance to animal shelter veterinary practitioners and operations managers. Infectious disease consultation services are also provided for veterinary clinics, boarding kennels and other animal facilities. Services offered: Diagnosis and response to disease outbreaks, onsite shelter consultation and phone/email discussion on animal health issues. Areas of consultation include preventive care, infectious disease, sanitation, animal welfare, behavior, spay/neuter, population management and improving outcomes for shelter pets. Consultations can be arranged by calling 352-273-8660 or visiting sheltermedicine.vetmed.ufl.edu. Maddie’s Shelter Medicine Program also offers an online training program in shelter medicine, veterinary forensic sciences, veterinary public health and nonprofit leadership for veterinarians and shelter staff worldwide.

DR. CYNDA CRAWFORD  crawfordc@ufl.edu
Maddie’s Clinical Assistant Professor of Shelter Medicine
Director, Maddie’s Shelter Medicine Program at the University of Florida

Dr. Crawford earned her PhD degree in Infectious Diseases and Immunology in 1984 and her DVM degree in 1989, both from the University of Florida. After 10 years as a small animal practitioner in Tallahassee, she returned to the University of Florida College of Veterinary Medicine as a postdoctoral associate in FIV immunopathology and joined the faculty in 2001. She has been with the Maddie’s Shelter Medicine Program since 2008. Her expertise includes the diagnosis, management and prevention of canine infectious diseases, particularly in high density/high turnover facilities such as shelters and boarding kennels.

DR. LAWRENCE GARCIA  garcian@ufl.edu
Maddie’s Clinical Assistant Professor of Shelter Medicine
Maddie’s Shelter Medicine Program at the University of Florida

Dr. Garcia received his DVM in 2009 and MS in 2004 at Auburn University. He previously held a position as a herd health veterinarian at an open admission municipal shelter in South Florida. The combined annual intake of cats and dogs is approximately 18-20,000. He has experience with population management, sanitation, outbreak prevention, high quality high volumes spay and neuter, county disaster response planning, developing standard operating procedures and protocols for shelter operations and expert witness testimony for civil and criminal animal cruelty.

DR. KELLIE WHIPLE

smallanimal.vethospitals.ufl.edu  |  352-392-2235 39
**DR. JULIE K. LEVY**  levyjk@ufl.edu  
Maddie’s Professor of Shelter Medicine  

**Maddie’s Shelter Medicine Program at the University of Florida**  

Dr. Levy received her DVM from the University of California at Davis in 1989 and her PhD in immunology from North Carolina State University in 1996. She is a Diplomate of the ACVIM. Dr. Levy’s clinical interests center on feline infectious diseases, neonatal kitten health, humane alternatives for cat population control and immunocontraceptive vaccines for cats. She is the founder of Operation Catnip, a community cat trap-neuter-return program that has sterilized more than 45,000 cats since 1998 and of the Million Cat Challenge, a program to save a million shelter cats over five years.

---

**DR. TERRY SPENCER**  tspencer@ufl.edu  
Maddie’s Clinical Assistant Professor of Shelter Medicine  

**Maddie’s Shelter Medicine Program at the University of Florida**  

Dr. Spencer received her MEd in Curriculum & Instruction from the University of South Florida in 1982 and previously worked as a science educator until 1995 when she earned her DVM from Colorado State University. She practiced small animal medicine as both an associate and a practice owner in Salinas, CA. During this time, she developed an interest in shelter medicine by contracting to provide veterinary care for Monterey County Animal Services. In 2004, she returned to Florida to work exclusively in shelter medicine both in open-admission and adoption-guarantee facilities. As the Director of Distance Learning for Maddie’s Shelter Medicine Program, Dr. Spencer focuses on designing effective instructional materials for teaching the knowledge and skills required to successfully practice in the emerging discipline of Shelter Medicine.

---

**DR. MICHELLE SALOB**

---

**DR. BRIAN DIGANGI**  digangib@ufl.edu  
Clinical Assistant Professor of Shelter Medicine  

Dr. DiGangi received his DVM from the University of Florida in 2006, completed an internship at Long Island Veterinary Specialists in 2007 and was the first veterinarian to complete a residency in shelter medicine at UF in 2010. Shortly thereafter, Dr. DiGangi became a Diplomate of the American Board of Veterinary Practitioners in Canine and Feline Practice and received a MS degree from UF in veterinary medical sciences. Special interests include cleaning and disinfection, high quality and volume spay-neuter techniques and enhancing the welfare of animals in shelters.

---

**DR. KELLY HARRISON**  kelmeyer@ufl.edu  
Clinical Instructor of Shelter Medicine  

Dr. Harrison received her DVM from the University of Florida in 2012. Prior to veterinary school, she received her MS in Veterinary Sciences, also at UF. Following graduation, Dr. Harrison completed a one year internship in shelter medicine at the University of Florida. Special interests include improving the overall standards of care and well-being of shelter animals, high quality and volume spay-neuter and behavior health strategies for animals living within a shelter environment.

---

**Veterinary Community Outreach Program**

The Veterinary Community Outreach Program provides an opportunity for veterinary students to develop their basic surgical skills through service learning and community outreach. The program also administers HAARTS, Helping Alachua’s Animals Requiring Treatment and Surgery, a donation-based service that works with shelters in order to enhance the surgical training of UF veterinary students beyond spay and neuter while saving animals at risk for euthanasia in local shelters. Finally, the program focuses on developing a veterinary workforce sensitive to the animal welfare needs of the community through regular outreach to local animal shelters and participation in the weekly St. Francis House Pet Care Clinic.

---

**DR. NATALIE ISAZA**  isazan@ufl.edu  
Grevior Clinical Associate Professor  

**Clinical Service Chief, Veterinary Community Outreach Program**  

Dr. Isaza received her DVM from the University of Florida in 1994 and completed a rotating internship in small animal medicine and surgery at Cornell University in 1995. She is the founding faculty member of the Merial Shelter Clerkship, started at UF in 2003. Following completion of her internship, Dr. Isaza worked in private small animal practice in California for four years. Prior to her current position at UF, she was on the faculty of Kansas State University’s College of Veterinary Medicine, where she was a community practice clinician and also supervised veterinary students in dental procedures and spay/neuter surgeries. Her interests include pediatric spay and neuter, developing shelter wellness programs for shelters and working with homeless and low-income members of our community to help them keep their pets healthy.
**GIFT OPPORTUNITIES**

**The Pet Memorial Program for Veterinarians and Animal Lovers**

The Pet Memorial Program at the University of Florida College of Veterinary Medicine provides a way of communicating to your client or friend that you know is grieving and to emphasize that you care about this significant loss in their lives. Many people are touched that their veterinarian or friend took the time to let them know how much they sympathize by remembering their pet in this special way. It helps them start the healing process and gives veterinarians and friends a warm feeling of satisfaction that they helped someone during this difficult time.

A gift in memory of your client’s or friend’s pet will say you care in a way that benefits all animals by supporting one of several programs at the College. When a client’s or friend’s pet dies, simply send your donation with the owner’s name and address and the name of the pet to the College. We will mail a personalized sympathy card to the client letting them know you have remembered their pet with a contribution. The donation amount is not included. Visit our website at [vetmed.ufl.edu](http://vetmed.ufl.edu) and click on Pet Memorial.

For more information or assistance regarding gift opportunities please contact:

Ms. Karen Legato
Executive Director of Development
University of Florida College of Veterinary Medicine
P.O. Box 100125
Gainesville, FL 32610-0125

**UF Veterinary Access Scholarship Program**

A gift to the UF Veterinary Access Scholarship program supports veterinary medical students at the state’s only college of veterinary medicine. Scholarship gifts afford access to the very best education for the best and brightest students. By helping to reduce educational debt, the college ensures access to professional pursuits that may include companion animal care, identifying emerging diseases, ensuring the safety and sustainability of the food supply, providing for the health, welfare and productivity of livestock, protecting global ecosystems, wildlife and aquatic species and advancing biomedical science through clinical discoveries. By investing in our students, you are providing for the future of veterinary medicine.

Ms. Patricia Wlasuk
